Dear Dalia,

I can't believe my trip is almost over. I came to Easter Island just two weeks ago. I was with a group from my school. We stayed with families that live on the island. We studied the stone statues, called Moai, and the cave paintings. I really learned a lot. I'm tired, but I loved every minute of my trip. It was a very interesting trip. I hope you'll come with me next time.

Take care.

3. Listen and check your answers to Exercise 2.

How much do you know about pyramids? Let's compare⁽¹⁾ two pyramids in Egypt. The Great Pyramid⁽²⁾ of Giza is 146 metres tall. It's taller than the Red Pyramid⁽³⁾, which is 105 metres tall. But the Red Pyramid is further away from the centre of Cairo, so it's less crowded⁽⁴⁾ with visitors. Because it's less crowded, it's also quieter.

Now let's compare two very tall buildings. The Shanghai Tower⁽⁵⁾ in China is 632 metres tall. The tower first opened in 2015. The Al Hamra Tower ⁽⁶⁾ in Kuwait is 412.6 metres tall. The building first opened in 2011. So, the Shanghai Tower is taller and more modern than the Al Hamra Tower in Kuwait.

Finally, we're going to compare two capital cities⁽⁷⁾. Bangkok became the capital of Thailand about 600 years ago, so it's much older than Brasilia. Brasilia is a modern city. The Brazilians built it in 1960. More people live in Bangkok than Brasilia. The population⁽⁸⁾ of Bangkok is more than 10 million. The population of Brasilia is about four and a half million.

So, how did you do? Did you get the answers correct?

The Grand Egyptian Museum

- 1) The oldest museum in Cairo opened in 1835. There were more than 160,000 of Egypt's most valuable treasures (2) on display (3). However, the museum did not have space (4) for 100,000 other objects. In 2002, there was a competition (5) to design a bigger and more modern museum. The competition had 1,557 designs from more than 80 different countries.
- 2) The Grand Egyptian Museum (GEM) welcomed its first visitors (6) in 2019. It is further from the city centre than the old
- museum, but only two kilometres from the pyramids at Giza. It has more space for valuable objects⁽⁷⁾, more people can see them and it is able to look after the objects really well.
- 3) One of the most beautiful parts of the museum is the entrance (8), with its big plants and statues (9). The biggest is that of Ramses II, which is 12-metres high.
- 4) Moving these objects from the old museum in Tahrir to complete the Grand Egyptian Museum is not easy.

It is expected to take many years of hard work.

We had a wonderful holiday in Egypt. These are my opinions about three of the most interesting places.

The biggest place we went to was the Karnak Temple (3). My favourite part was the Hypostyle Hall (4), a 5,000-square-metre (5) "room" with 134 stone columns. I think it was more crowded than the Valley of the Kings.

In my opinion, the best and quietest place we visited was Habu Temple⁽⁶⁾. It has columns similar to those at Karnak, but because it is less crowded, you can study them for longer.

Post-reading question:

- What do you think of Habu Temple?

The British Museum

The British Museum (1) in London is the oldest public (2) museum in the world. It opened in 1759 and now has more than 13 million objects. About six million visitors go there every year.

- المتحف البريطاني (1)
- عام (2)
- مجموعة (3)
- اللقة الميروغليفية (5)
- المحكمة الكبري (6)

The museum has the biggest collection of Egyptian objects outside Egypt. One of its *most important* objects is the Rosetta Stone 4). This arrived at the museum in 1802. The writing on the stone is in three different languages. This allowed people to understand ancient Egyptian hieroglyphics (5) for the first time.

In my opinion, the most beautiful part of the museum is the Great Court (6). Its big glass room makes it the largest covered square in Europe. It opened in 2000, so it is also the *most modern* part of the museum.

Reading

Al Azhar Park is the largest and the most beautiful park in Cairo. It is much larger than the small park near my house.

That park has a few trees and plants and I enjoy going there after school. You can spend an hour or two in that

park, but you can spend a lot of time at Al Azhar Park. The trees there are taller and it has more plants. It also has fountains, a lake and cafés, too. I like going there because there is space for all our family to have a big picnic at the weekends! My sister always says, "I love it here".

- Do you know about the seven wonders(1) of the ancient world?

People thought that they were the most fantastic buildings in the world. Many of them were in or near Egypt.

For many centuries⁽²⁾, this Lighthouse of Alexandria⁽³⁾ was the tallest building ever made.

The sea was dangerous for boats because there were a lot of rocks near Alexandria. The lighthouse warned⁽⁴⁾ boats about the rocks. This was a very important invention⁽⁵⁾.

We use similar technology today. We still use lighthouses to warn boats about rocks. Boats are safer now thanks to the work of the ancient Egyptians.

The Hanging Gardens of Babylon⁽⁶⁾ were probably in modern day Iraq. These were beautiful gardens around a huge palace⁽⁷⁾.

The Statue of Zeus⁽⁸⁾ was in ancient Greece⁽⁹⁾. This was believed to be the biggest statue in the world. Another wonder of the world was the Colossus of Rhodes⁽¹⁰⁾. This was another big statue in ancient Greece.

The Ancient Greeks also built the Temple of Artemis⁽¹⁾... and the Tomb of Mausolus.

Time and earthquakes⁽¹²⁾ destroyed⁽¹³⁾ most of these wonders of the world.

After an earthquake in Alexandria, they built Fort Qaitbay at the same place as the Lighthouse of Alexandria and used many stones from the same building.

Today, only the Great Pyramid of Giza remains. Experts believe that this was the first ancient wonder because it is older than the others.

Every year, millions of people come to see the pyramids of Egypt. They are some of the most visited tourist attractions. (4) anywhere.

For many people, the Great Pyramid of Giza is also a wonder of the modern world. Which building do you like the best? Why?

Tip

It is important to negotiate when you need to decide something important with other people. Remember, negotiation is not about winning an argument. Listen carefully to what other people say. You should try to get the best ideas from and for each other.

من المهم أن تتناقش عندما تقرر شيئًا مهمًا مع أشخاص آخرين. تذكر أن التفاوض لا يعنى الفوز في المناقشة. استمع جيدًا إلى ما يقوله الآخرون. حاول الحصول على أفضل الأفكار سواء من خلالك أو من خلال آخرين.

Plan your own adventure.

- 1. Work in pairs. Choose an adventure sport from the lesson, or your own ideas.

- 3. Tell other students about your plan.

Around the World in 80 Days

by Jules Verne

In 1872, the writer Jules Verne read a newspaper article⁽²⁾ about a new railway line.³⁾ across India. It gave him a great idea for a book. He wrote a story about a British man called Phileas Fogg. He takes a challenge⁽⁴⁾ to travel around⁽⁵⁾ the world in just 80 days. This sounds easy today, but at that time, there were no cars or planes.

Dear Anas,

How are you? You asked me in your email about places to visit in Egypt. I recommend the Pyramids. The Egyptian Museum is a good place to learn all about the things you'll see at the ancient sites. I also recommend that you go with a guide. The guide can tell you a lot of interesting things about the places you are going to visit. In Luxor, you can visit Luxor and Karnak Temples. In Aswan, you will like the sunny weather and the ancient temples. The best beaches are in Hurghada where you can try windsurfing. You can go snorkelling and scuba diving. You can go to the bazaar in the old part of the city. It's a good place to buy souvenirs.

See you soon,

Kady

There are many sports that people enjoy today, such as hockey(1), الموكي (1) athletics(2), and archery(3). But did you know these sports, and many ألعاب القوى (2) الرماية (3) others, were first played in Ancient Egypt? Very old drawings and المبرزة (4) paintings show people playing a lot of different sports. العصا (5) This picture in the Temple of Ramses III shows people fencing (4) with بتشلجر (6) السيوف (7) sticks(5). In fencing today, two people fight (6) each other with swords 7. الجري (8) The Ancient Egyptians also liked running⁽⁸⁾. During the time of سباق (9) King Taharka, there was a race⁽⁹⁾ of 100 kilometres. People believe⁽¹⁰⁾ يعتقد (10) جنود (11) that this was a test so that the king could find his best soldiers(11) السباق الفرعوني (12) . Today, there is a race called the Pharaonic Race⁽¹²⁾. This, too, is 100 مرم هوارة (13) kilometres. It starts at the Hawara Pyramid⁽¹³⁾ and finishes in Saggara

Some people think the ancient Egyptians played tennis⁽¹⁵⁾, because there is a town near the Nile called Tinnis ... and because the Arabic word for part of the hand is rahat al-yad. This sounds like the racket⁽¹⁶⁾ you hit the ball with.

(14). Running is very popular today. Millions of people around the

world go running every week. It is a good way to stay healthy.

Sport was very important in Ancient Egypt. Is sport important for you?

Trekking is an adventure hobby that most children, who love nature, like. It is both a hobby and a sport. Taking up trekking as a hobby is also useful to children. Trekking is quite exciting. Here's some advice when you go trekking. Always go with an elder person. Start exercising at least a few weeks before the trekking trip. Make sure to prepare your food, water and all your equipment before you leave the camp. Carry dry fruits and sweets. Leave your money, passport, travel tickets and other valuables at the camp or at the hotel. Do not make loud noise or throw litter here and there during your trip. Keep the mountains clean and bring back all your waste from the mountains. Take a rest when you feel tired. Always follow your guide and stay close to your group. Many schools organise trekking to develop love for nature among students.

Read the emails. Did Amy and Dareen both climb Sydney Harbour Bridge?

Hi Dareen,

How are you? I'm really enjoying myself in Sydney with my family. Sydney is about eight hours by car from our home in Melbourne. Yesterday, I climbed Sydney Harbour Bridge. It was very high and scary. But the views from the top were fantastic! My sister and I took a great selfie of ourselves!

Tonight, I am going to listen to music at the Sydney Opera House, but it is not opera, it is classical music! Tomorrow, I am going to the Blue Mountains. I am going to swim in a lake and go rock climbing.

Here are some photos!

Love, Amy

Hi Amy,

Your holiday sounds fantastic. My family and I went to Sydney last year, but we did not climb the bridge! We went to Bondi Beach and went windsurfing and kayaking. I love water sports!

I hope you enjoy your holiday, send me an email when you are home.

Love, Dareen

Post-reading question:

Reading

Pre-reading question:

Who wrote Robinson Chaster

1. Read the text and answer the questions.

WB page 91

Last weekend, I watched a TV programme about Robinson Crusoe Island. The author of *Robinson Crusoe*, Daniel Defoe, wrote about this island because a real sailor called Alexander Selkirk spent four years alone here. Defoe wrote *Robinson Crusoe* after hearing about this man. However, Crusoe's adventures were different to Mr Selkirk's. Crusoe spent a lot longer on the island (28 years) and the weather was a lot hotter than on the real island. Today, about 800 people live on Robinson Crusoe Island. Life is easier now, although people still have to look after themselves. The nearest land, Chile, is 24 hours away by boat. Soon they are going to build a new school and hospital on the island. Those are things that Crusoe did not have!

Post-reading question:

- What do you think of the story?

Boy 2: I'm afraid, I don't agree.

Girl 1: What shall we do this afternoon, Lama?

Girl 2: Why don't go swimming?

Girl 1: I'm not sure. The swimming pool is not very near.

Girl 2: OK. How about going to the park?

Girl 1:Good idea! I love the trees and plants there.

Boy 3: What do you think about that book you're reading?

Boy 4: I think it's the worst book ever!

My predictions for the future

We use modern technology more and more in our daily life. In the future, I think everything will depend on computers. We will have tiny computers in our clothes to keep us warm or to make us cool. At school, I think computers will be our teachers, but we should always have teachers. I think we won't live in crowded cities, we will I ve on other planets. In the future, we will have small electric cars. They will be easy to drive in traffic. These cars won't use petrol. They will use electricity. They will be better for the environment. They will be very fast.

Pre-listening question. Where will you inno gardens in the future?

2. Listen to an interview with an architect, Dina Hassan. Which three sentences does Dina say about her house of the future? SB page 38

Presenter: Hello, welcome to our podcast(1): Homes of the

Future. Today, we have a special guest(2) - Dina

Hassan. She is a famous architect. Hello, Dina.

Dina : Hello.

Interviewer: What does an architect do?

Dina : Well, I design buildings such as houses or schools.

I think about what materials to use and I draw

pictures of it.

Interviewer: What are you designing at the moment?

Dina : I'm working on a project for houses for the future.

They'll be a bit different to our houses today.

Interviewer: In what ways will they be different?

Dina : Well, I think we'll need more

gardens in the future, but there won't be much space⁽³⁾. So the

garden will be on the roof.

Interviewer: A garden on the roof, great!

Dina : And I think people will all use

electric cars(4) in the future, so

there'll be chargers(5) for electric

car next to the house.

Interviewer: How will people get their electricity?

Dina : There'll be lots of solar panels⁽⁶⁾

and a wind turbine(7). They'll make

the electricity(8).

Interviewer: Great. What else will be different in 2050?

: Well, I think there will be robots(9) to do all the Dina

housework.

Interviewer: Fantastic! Will people use drones(10)?

: Yes, I think drones will bring food and parcels(11) Dina

to the house.

Interviewer: What materials will the house be made of?

: We will use plastic bricks that are very strong. We'll also use a lot Dina

of glass and metal. Look, here's a picture of what it will look like.

Interviewer: Oh it's beautiful. Thank you very much Dina for talking to

us. I think I'll like living in this house!

Post-listening question: - What materials will the house be made of in the future?

Pre-reading question:

How long will the journey to the moon take in 2080?

5. Read and circle the correct words.

Holidays on the moon

In 2080, you won't go to the beach (1) for your holiday (2). You will go to the moon (3)! There will be rockets (4) that leave Earth every day, and the journey will take only 12 hours. They will be very fast (5)

In 2080, people won't drive a car. We will all have a driverless car (6). They will be safer (7) and there won't be any accidents (8). Students will read a book or watch TV when a computer on the car drives them to school!

Post-reading question:

- Do you think life in 2080 will be interesting? Why? Why not?

Pre-reading question:

Why is a round building cheaper to build?

1. Look at the photos. What shape are all the houses?
Why do you think they are this shape?

SB page 40

Round(1) houses around the world

Many traditional (2) houses in the past were round.

Today, many modern (3) houses are also round. Why is this? There are lots of reasons!

A round shape means the building is very strong. This is important when there is an earthquake⁽⁴⁾ or in strong winds. Also, heavy snow or rain will fall from the roof.

A round house is also easier to keep warm or cool. It is also quieter⁽⁵⁾ inside a round building than a building that is a rectangle⁽⁶⁾ or square⁽⁷⁾.

Finally, a round building uses fewer materials (so it is cheaper to make). It also has more space (8) inside. How fantastic!

Post-reading question:

- Can you think of any disadvantages to a round house?

Years

Years are normally divided into two parts

1984

nineteen eighty-four

تتقسم الأعوام عادة إلى جزأين

1066 ten sixty-six

1652 sixteen fifty-two

1941 nineteen forty-one

2017 twenty seventeen

2000 - 2010

For the year **2000** you say (the year) **two thousand**.

- يقرأ العام ٢٠٠٠ (Two thousand):

For the years 2001 to 2010, we normally say

- تقرأ الأعوام من ٢٠٠١ إلى ٢٠١٠ كالتالي:

two thousand and + number.

2001 two thousand and one

2005 two thousand and five

Do you live in a village or in a city?

And do you live on the coast⁽¹⁾, near the sea or in the desert⁽²⁾? There are often different houses for each place.

This house is a traditional Nubian house. The floors⁽³⁾ are made of sand⁽⁴⁾ and there is normally a bench⁽⁵⁾ outside each house to sit on. This is made of mud⁽⁶⁾.

These Nubian houses are in Aswan. They're very colourful.

There are paintings on the walls of Nubian houses of things like fish, crocodiles⁽⁷⁾ and palm trees⁽⁸⁾.

The door of each house usually faces⁽⁹⁾ south. This is to protect people from the strong wind from the north.

Houses will probably be different in the future. Many houses will be made of recycled material or natural material in, like wood.

This hotel is in Siwa and it's made of natural materials. The roof⁽¹²⁾ is made of palm trees.

Many houses in the future will use the sun for electricity. This is called solar power⁽¹³⁾.

What type of house do you want to live in? Is it a house?

Or is it an apartment? There are lots of different places to live in.

The environment

It's important to live a healthy life. The environment is the place where we all live. We must keep it clean to be healthy. When plastic stays in the environment, there is a big problem. Some of the plastic is about 100 years old! Every year, many sea animals die from plastic. We must try to use other materials like paper and glass. We must use our shopping bags more than once. We mustn't throw them away. We mustn't stop trying to find ways to help our planet. We must keep our planet clean. We must save it!

We must save our planet!

Plastic is everywhere! We use it for many different things. The problem is, plastic stays in the environment⁽¹⁾ for a very long time.

- البيئة (1)
- يعيد تصنيع (2)
- يرمي (3)
- قمامة (4)

Some of the plastic people find on beaches is about 100 years old! We can recycle (2) some plastic, but most of it goes into the ocean. Plastic is poisonous when animals eat it.

Every year, more than 100,000 sea animals and birds die from plastic. We must try to use other materials – paper and glass, for example – because these are easier to recycle.

When we use a plastic shopping bag, we mustn't throw away (3) these bags in rivers.

It will take a long time to clean all the plastic rubbish⁽⁴⁾ from the beaches and the ocean. But we mustn't stop trying to help our planet⁽⁵⁾!

Post-reading question:

- Which two materials are easier to recycle than plastic?

Some animals think that plastic is food, but they mustn't eat it. It is very bad for them. Finally, you must remember to work together and write what you see. You can write about your visit to the reserve for the project(5).

The Old Man and the Sea

by Ernest Hemingway

Santiago was an old fisherman⁽¹⁾. He felt worried⁽²⁾ because the last time he caught a fish was 84 days ago. On the 85th day, he felt a big fish at the end of his fishing line⁽³⁾. But the fish was stronger than Santiago. It took two days for him to finally pull it to the boat. Then the sharks came. When Santiago returned to his home on the beach, he had no fish, only a skeleton⁽⁴⁾. He felt weak and slept for a long time. But the other fishermen saw how big the fish was and knew that he was brave⁽⁵⁾ to catch it. Santiago lost the fish, but the other fishermen now respected⁽⁶⁾ him more than ever.

Post-reading questions:

- 1. How did Santiago feel when he didn't catch any fish for 84 days?
- 2. What do you learn from the story?

From the camel to the beautiful desert cat⁽¹⁾, or caracal⁽²⁾ ... to the Nile crocodile⁽³⁾, there are many animals in Egypt. But some animals are in danger of extinction⁽⁴⁾. This means that every example of the animal will die⁽⁵⁾. The Dorcas gazelle⁽⁶⁾ lives in the Sinai Peninsula⁽⁷⁾ and in other parts of North Africa. It eats plants and you can sometimes see them early in the morning and late in the evening. The animal is in danger because some people want to eat it.

In the past, the Barbary sheep ⁸⁾ lived all over the country. It eats plants, but warmer weather means the sheep find it harder to find food. Today, you can only find them in the mountains of southern and western Egypt.

The striped hyena⁽⁹⁾ looks like a dog. You can only see it at night. It eats other animals. People think that there are only a small number of striped hyenas in Egypt.

One of the most unusual animals is the dugong of this animal lives in the Red Sea and other places. It is also called the sea cow. This is because it only eats plants that grow underwater.

The dugong is in danger because there is plastic and other pollution⁽¹⁾ in the sea. Also, there is not much food in the sea for it to eat.

Today, there are some organisations⁽¹²⁾ that want to help these and other animals that are in danger, like this turtle. It is helpful for animals when we take rubbish from the beaches. We must all do what we can to help to protect nature.

My dream job

This week, we interviewed Nesma El-Soory, a marine biologist.

1. What's a marine biologist?

A marine biologist⁽¹⁾ is a person who studies the ocean ² and the plants and animals in it.

2. Why did you decide to become a marine biologist?

I'm good at science and I love the ocean. The animals in our oceans are really beautiful and interesting.

3. What's your day like?

In my job, every day is different! On some days, I go diving around coral reefs ³⁾. On other days, I test water from the ocean in the laboratory ⁽⁴⁾. I also spend a lot of time on the computer, writing the results ⁽⁵⁾ of tests.

4. What's the best thing about your job?

My research⁽⁶⁾ helps to protect the plants and animals in the ocean. That's the best thing. It's really important to look after our planet, isn't it?

5. And what's the worst thing?

There are bad things about every job, aren't there? Sometimes the weather 7) is terrible(8). It isn't nice to go out in a boat for a dive when there's a storm(9)!

Traditional jobs in Africa

Today many people in Africa work in modern offices, but traditional⁽¹⁾ jobs and skills⁽²⁾ are still important.

1. B

People started making pottery⁽³⁾ thousands of years ago in Egypt. Some people make pottery in workshops⁽⁴⁾ or their own homes. If you go to a village in Fayoum Fayoum, you will see many people making pottery. There is also a school where children and adults⁽⁵⁾ can learn the skill.

It is traditional to make jewellery⁽⁶⁾ in Kenya. You can see the colourful⁽⁷⁾ jewellery in markets all over the country. Today some local businesses⁽⁸⁾ also use social media⁽⁹⁾ and the internet to sell jewellery to people in different countries. It is an important skill because it continues an old tradition⁽¹⁰⁾ and it helps local people to earn⁽¹¹⁾ money.

It is an important part of Africa's culture⁽¹²⁾ to make baskets. It is also a way for women from small African villages to earn money. In Ghana, there are a lot of women who make and sell baskets. You can buy colourful baskets from Ghana in countries all over the world.

My predictions(1) for the future

By Ahmed

In the next 30 years, there will be a lot of changes in our lives.

Technology⁽²⁾ will make our lives easier and more interesting. Our phones will be even more important and we will have apps⁽³⁾ for everything.

Scientists will find new cures⁽⁴⁾ for illnesses⁽⁵⁾ so people will live longer. Some illnesses will disappear⁽⁶⁾ completely.

All our cars will be electric⁽⁷⁾. If this happens, it will be much better for the air in our cities, won't it? I don't think I will have to learn to drive because cars will drive themselves!

There will be a lot of interesting new jobs for people.

Robots⁽⁸⁾ will do some of the jobs that people do today.

But I don't think we will have robot doctors or teachers!

I think there will be a lot of exciting changes in the future, but some things will stay the same. Children will still go to school, learn new things and spend time with friends.

Before I leave school, I'm going to do voluntary work at a children's hospital. In a few years' time, I want to go to a good university. Then, in about ten years' time, I think I'll be a doctor in a good hospital!

What job will you do when you are older? Will you be an engineer, who designs exciting new things? Will you be a doctor, who looks after sick people? Or will you be an architect, who designs new buildings and even cities?

These will all be important jobs in the future. But did you know that the ancient Egyptians did many of these jobs too? They helped to form the world we know today.

Engineers in ancient Egypt designed and built a lot of things, like boats. These boats used the wind.¹⁾ to help them travel to other parts of the world.

The ancient Egyptians also learned how to move water from one place to the next. This helped farmers who worked far from the Nile. We use similar ideas to help farmers today.

A doctor was a very important person in Ancient Egypt. The doctor used a lot of different tools 2). We can see some of them in this picture. The ancient Egyptians also had dentists.

In the tenth century⁽³⁾, an Egyptian doctor invented the first kind of syringe⁽⁴⁾. Today doctors and scientists use syringes every day. Imhotep was the world's very first architect. He designed a new way of building pyramids using stone. He built the pyramid at Saqqara using this method⁽⁵⁾. He also used it to build the Great Pyramid at Giza. Imhotep also used stone to build columns. These columns⁽⁶⁾ made buildings very strong. Before this, the ancient Egyptians used mud⁽⁷⁾ and plants to build columns. These columns sometimes fell down. But every job can be important. If you do your job well, you can help to make a better world.

1. Read the story quickly. Why is Tarek worried?

There was a film about the dangers to our planet on TV yesterday. It was very sad. What can we do?

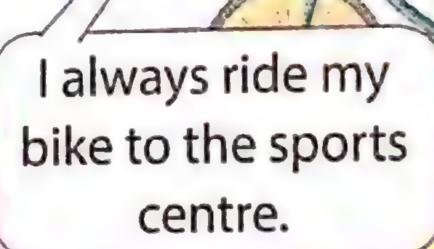

The multiplication of the state
If we pick up the rubbish from the beach, the animals won't eat it.

We must walk or cycle when we can.

If we have shorter showers, we'll save water.

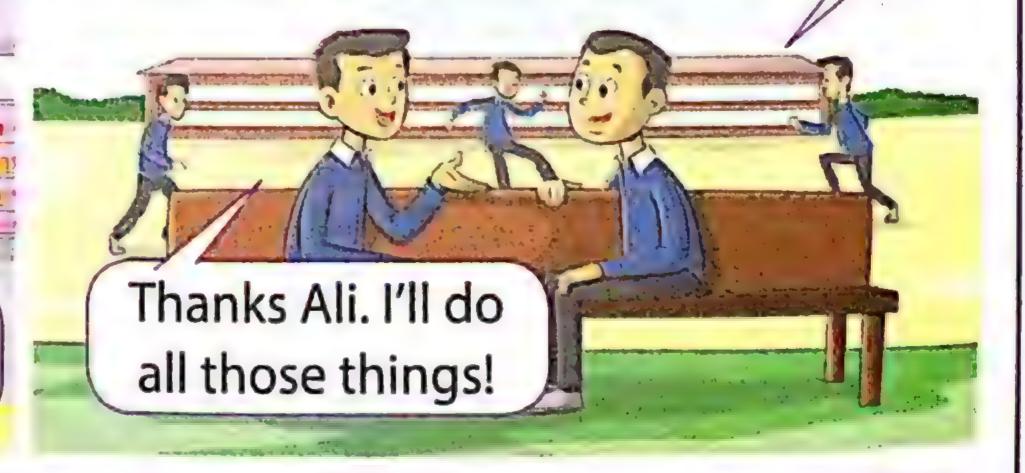

You mustn't buy plastic bag.

If we all do these things, we'll help to save our planet.

My shopping bag is made of cotton.
I use it every day.

Post-reading question: - What will happen if we have shorter showers?

Reading

Pre-reading question? - What does an aeronautical engineer do?

1. Read and complete the article with the words in the box.

WB page 114

In the past, many people had **traditional** jobs that people still do today. There were many teachers and bakers, for example. However, some jobs are quite new, **aren't** they? For example, an aeronautical engineer is a person **who** designs things that fly. If you **want** to become an aeronautical engineer, you will have to study science. It is not an easy job, but it is very **interesting**. If you want to help future technology, perhaps you **will** design drones. Many people think that drones will **carry** our post in the future. That will make the skies above our cities interesting, **won't** it?

Post-reading question: - Do you think people will stop doing traditional jobs?

1. Guessing something

I'm not sure what this souvenir made of. Is it plastic or stone?

2. Giving instructions in order

Then feel the fruit carefully. It should not be too soft.

So, if it's yellow and not too soft, what should you do?

Well, finally, take it carefully from the tree.

3. Checking information

Hello, so, it's Mrs Shabana, isn't it? And you have got two children in this class, haven't you? But Aya isn't in school today, is she?

4. Talking about future plans

Before I go to university, I think I'll travel for a few months. Then I'd like to work for a charity.

Pre-listening question:

- What are magazines made of?

1. Hala and Malak are doing a recycling project at school. Listen and tick (\checkmark)

the materials you hear.

SB page 65

Malak: Here are the boxes for the recycling project. Different rubbish

goes into different boxes.

Hala: Great! So which box does this bottle go into?

Malak: What is it made of - plastic or glass?

Hala: It's made of plastic.

Malak: OK, it goes into the yellow box.

Hala: Right ... There's another bottle here. This one is made of glass.

Malak: If it's made of glass, it goes into the blue box.

Hala: What about this magazine? It's made of paper.

Malak: It goes into the red box.

Hala: Where can I put this can?

Malak: If it's made of metal, it goes into the green box.

Hala: Yes, it's made of metal... I'm putting it in the green box.

Malak: What's left?

Hala: Just this T-shirt. We can't recycle that, can we? It's made of cotton.

Malak: We're not going to recycle the clothes - but we can give them to

other people so that they can use them. Put them in the orange

box, please.

Hala: The orange box ... OK.

Malak: Great. Everything is ready. Thanks for your help, Hala.

Reading Comprehension

Read the following, then answer the questions:

The Grand Egyptian Museum (GEM), also known as the Giza Museum, welcomed its first visitors in 2019. It is further from the city centre than the old museum, but only two kilometres from the Pyramids at Giza and 15 kilometres southwest of Cairo. In 2002, there was a competition to design a bigger and more modern museum. The competition had 1,557 designs from more than 80 different countries, making it the second largest competition in history. One of the most beautiful parts of the museum is the entrance, with its big plants and statues. The biggest statue is the 12-metre statue of Ramses II. It has more space for valuable objects, more people can see them and it is able to look after the objects really well.

Trekking is an adventure hobby that most children, who love nature, like. It is both a hobby and a sport. Taking up trekking as a hobby is also useful to children. Trekking is quite exciting. Here's some advice when you go trekking. Always go with an elder person. Start exercising at least a few weeks before the trekking trip. Make sure to carry your food, water and all your equipment before you leave the camp. Carry dry fruits and sweets. Leave your money, passport, travel tickets and other valuables at the camp or at the hotel. Do not make loud noise or throw litter here and there during your trip. Keep the mountains clean and bring back all your waste from the mountains. Take rest when you feel sick. Always follow your guide and stay close to your group. Many schools organise trekking to develop love for nature among the students.

#### Final Tests Reading Comprehension

Read the following, then answer the questions:

If you want to be good at English, the best thing you can do is to build up your words. First of all, you should read a lot. You can read short stories, comics, newspapers, magazines, etc...... As you read, you can guess the meanings of new words. If you cannot, then look them up in a dictionary. Another way is to watch movies in English. Keep a vocabulary notebook and write down a few words each day. You should revise them. In my opinion, to speak to people all you need is to use the words you learned.

3 Read the following, then answer the questions:

There are many kinds of houses. Most people in the United States live in houses made of wood or bricks. In Eritrea, the nomadic people build their houses of straw. The homes are small and cool. They can move their houses when they want to move. They take their animals to new places in order to find food. People who belong to Peru build their houses of trees. They also live on islands that are made of trees! Their boats are made of trees too! About 2,000 people live on these man-made islands. They started to build their own islands about 500 years ago.

#### Read the following, then answer the questions:

My name is Amir. I am twelve years old. We have a small toy shop in our town. My father says Fridays are the busiest day in our toy shop. So after we have breakfast, my mum takes me there to help my dad. That's another reason why I like Fridays. We let children play with the toys when they are in the store. My father says I should watch the toys and that I need to make sure nothing breaks. Many children from my school also come to the shop to look at our new toys. It is always noisy here, because there are a lot of babies and small children. Little girls like to go for dolls, boys go for cars. Some just want to play with the toys, some really want to buy them. It's a bit tiring for me, but I like going to the shop and helping my father.

I played with them, repaired the ones my friends broke. I also helped my dad fix his car. So, I want to become a mechanic and open up my own shop. My parents are happy with my choice, too. They think it's important that I do a job that I like. I have a good job now and I really enjoy it. I'm planning to get married soon. Who knows, maybe I will have a car shop in the future.

One day, a lion put his foot on a mouse who climbed on the body of the lion. "Oh, please, sir, don't eat me!" shouted the little animal. "If you let me go, I will help you some time." The lion smiled, and let him go. Not long after that, some men put a net in the forest and the lion ran into it and could not get out. He knew that if he stayed there until morning the men would find him and kill him. The mouse heard him shouting and ran to help him. Lion still a while and I will help you," he said. Then he began to cut the net with his small teeth and soon cut the net in pieces. "You laughed at me once," he said, "as if you thought I was too little to help you. But I helped as I said." The lion thanked the mouse and they became friends.

Music is the thing that has the power to make everyone pleased. The poorest person can hear it played all around him on radios and loudspeakers. It fills you up with real happiness. All kinds of music are fantastic and it doesn't matter whether you listen to happy, sad, or joyful music because it helps to treat illnesses. No party is complete without it. Whether at a birthday party, or even a marriage. The first thing we hear is music, before our birth; when our mothers listen to music. Then, when we are born, we hear our mothers and fathers sing for us. Music becomes even more important when we become older.

The British Museum in London is the oldest public museum in the world. It opened in 1759 and now has more than 13 million objects. About six million visitors go there every year. The museum has the largest collection of Egyptian objects outside Egypt. One of its biggest objects is the Rosetta Stone. This arrived at the museum in 1802. The writing on the stone is in three different languages. This allowed people to understand ancient Egyptian hieroglyphics for the first t me.

In my opinion, the most important part of the museum is the Great Court. Its big glass room makes it the most beautiful covered square in Europe.
